## Bayer CropScience

Business	Business	Product's	Product's short Description
Group	Unit	Name	
Environmental Science		Agenda EC25	A unique termiticide for the control of termites, provides structural protection and colony management which contains a non-repellent active ingredient Fipronil with a novel mode of action and exceptional activity against termites at ultra-low doses. It has good residual properties in soil with minimal effects to the environment.
		Aqua K-Othrine	An innovative high performance space spray concentrate is designed for ULV application but with thermal fog capability. There is zero diluents cost and minimal environmental impact. This product was developed as a water-based formulation containing a patented evaporation retardant.
		Baycidal WP250	A wettable powder concentrate containing the insect growth regulator Triflumuron, with its' low mammalian toxicity and chitin synthesis inhibition properties have made it to use as additives to usual spray treatment to improve reliability and residual action. It is effective against all larval and nymphal stages with both complete and incomplete metamorphosis.
		Blattanex Gel	The ready to use gel bait for fast, effective control of cockroaches has been tailor made for self-applied.
		Cislin EC25	A residual insecticide based upon the most active pyrethroid compound yet discovered (Deltamethrin) for Pest Control Industry.
		Deltacide	A thermal fogging insecticide concentrate which is designed for dilution with diesel oil or kerosene. It

1 synergists which will deliver the good efficacy for insect control especially mosquito.  Ethoxysulfuron			composes of 2 active ingredients and
Ethoxysulfuron WG A very effective Sulfonylurea herbicide used in crops against sedges and broad-leaved weeds. K-O Tab A concentrated tablet (25% Deltamethrin) is designed for treatment of mosquito nets to provide a long lasting repellent and killing effect against mosquitoes, sand flies and other arthropods. Environmental Science  Maxforce Forte Maxforce Forte The new ready to use gel bait for fast, effective control of cockroaches has been tailor made for professional use.  Maxforce Quantum A new ready to use liquid gel bait for effectively control of ants & colonies which has been developed for professional use.  Premise SC200 A new generation termiticide with the unique dual mode of action which breaks the concept of termite barrier, provides structural protection and colony management by creating a non-repellent treated zone plus working with nature to kill termites. Its' novel mode of action is exceptional activity against termites at ultra-low doses with having the good residual properties in soil by with minimal effects to the environment.  pulsFOG The best thermal fogging sprayer produces from Germany with a patented switching on Pulse Jet. Quick Bayt The ready to use granular bait for fast, effective control of files. It is easy to use and suitable for targeted application as scattering or balting. The newst fly bait with faster WG10 Racumin Paste Racumin Paste The heighly effective, universally applicable, ready to use rat bait with the most advanced from first generation anti-coagulant rodenticide "Coumatetraly" for the control of rats in houses, buildings, stores, factories, warehouse and farms.			
Ethoxysulfuron WG A very effective Sulfonylurea herbicide used in crops against sedges and broad-leaved weeds.  K-O Tab A concentrated tablet (25% Deltamethrin) is designed for treatment of mosquito nets to provide a long lasting repellent and killing effect against mosquitoses, sand flies and other arthropods.  Environmental Science  Maxforce Fort The new ready to use gel bait for fast, effective control of cockroaches has been tailor made for professional use.  Maxforce Quantum A new ready to use liquid gel bait for effectively control of ants & colonies which has been developed for professional use.  Premise SC200 A new generation termiticide with the unique dual mode of action which breaks the concept of termite barrier, provides structural protection and colony management by creating a non-repellent treated zone plus working with nature to kill termites. Its' novel mode of action is exceptional activity against termites at ultra-low doses with having the good residual properties in soil by with minimal effects to the environment.  pulsFOG The best thermal foggling sprayer produces from Germany with a patented switching on Pulse Jet.  Quick Bayt The ready to use granular bit for fast, effective control of files. It is easy to use and suitable for targeted application as scattering or baiting.  Quick Bayt The newest fly bait with faster effective control of files. It is easy to apply by mixing with water to spray or paint.  Racumin Paste Racumin Paste The highly effective, universally applicable, ready to use rat bait with the most advanced from first generation anti-coagulant rodenticide "Coumatetraly" for the control of rats in houses, buildings, stores, factories, warehouse and farms.			· -
