

Business	Business	Product's	Product's short Description
Group	Unit	Name	
Environmental Science		Agenda EC25	A unique termiticide for the control of termites, provides structural protection and colony management which contains a non-repellent active ingredient Fipronil with a novel mode of action and exceptional activity against termites at ultra-low doses. It has good residual properties in soil with minimal effects to the environment.
		Aqua K-Othrine	An innovative high performance space spray concentrate is designed for ULV application but with thermal fog capability. There is zero diluents cost and minimal environmental impact. This product was developed as a water-based formulation containing a patented evaporation retardant.
		Baycidal WP250	A wettable powder concentrate containing the insect growth regulator Triflumuron, with its' low mammalian toxicity and chitin synthesis inhibition properties have made it to use as additives to usual spray treatment to improve reliability and residual action. It is effective against all larval and nymphal stages with both complete and incomplete metamorphosis.
		Blattanex Gel	The ready to use gel bait for fast, effective control of cockroaches has been tailor made for self-applied.
		Cislin EC25	A residual insecticide based upon the most active pyrethroid compound yet discovered (Deltamethrin) for Pest Control Industry.
		Deltacide	A thermal fogging insecticide concentrate which is designed for dilution with diesel oil or kerosene. It

		composes of 2 active ingredients and
		1 synergists which will deliver the
		good efficacy for insect control
		especially mosquito.
	Ethoxysulfuron	A very effective Sulfonylurea herbicide
	WG	used in crops against sedges and
	***3	broad-leaved weeds.
	K-O Tab	A concentrated tablet (25%
	K-O Tab	Deltamethrin) is designed for
		treatment of mosquito nets to provide
		a long lasting repellent and killing
		effect against mosquitoes, sand flies
	NA C 5 .	and other arthropods.
Environmental	Maxforce Forte	The new ready to use gel bait for fast,
Science		effective control of cockroaches has
		been tailor made for professional use.
	Maxforce	A new ready to use liquid gel bait for
	Quantum	effectively control of ants & colonies
		which has been developed for
		professional use.
	Premise SC200	A new generation termiticide with the
		unique dual mode of action which
		breaks the concept of termite barrier,
		provides structural protection and
		colony management by creating a
		non-repellent treated zone plus
		working with nature to kill termites.
		Its' novel mode of action is
		exceptional activity against termites at
		ultra-low doses with having the good
		residual properties in soil by with
		minimal effects to the environment.
	pulsFOG	The best thermal fogging sprayer
	, , , , , , , , , , , , , , , , , , , ,	produces from Germany with a
		patented switching on Pulse Jet.
	Quick Bayt	The ready to use granular bait for fast,
	Quion Buye	effective control of flies. It is easy to
		use and suitable for targeted
		application as scattering or baiting.
	Quick Bayt	The newest fly bait with faster
	WG10	effective control of flies. It is easy to
	WGIO	apply by mixing with water to spray or
		paint.
	Racumin Paste	The highly effective, universally
	nacuiiiii Faste	
		applicable, ready to use rat bait with the most advanced from first
		generation anti-coagulant rodenticide
		"Coumatetraly!" for the control of rats
		in houses, buildings, stores, factories,
	Daniel 1	warehouse and farms.
	Racumin	A unique tracking powder rodenticide
	Powder	for the control of rats provides 2 ways

	in term of use application, apply directly on to the pathways, entrance of rat hole or use to make a ready bait by mixing with some diet constitutes at the ratio 1:19.
Racumin Rice Bait	A ready to use rat bait contains an effective anti-coagulant rodenticide "Coumatetralyl" for the control of rats in houses, buildings, stores, factories, warehouse and farms.
Racumin Wax Block	The ready to use rat bait in new formulation of wax block which is easy to apply.
Resigen	A blend of the synthetic pyrethroids Permethrin and S-Bioallethrin plus with the pyrethroid synergist PBO. It is specially formulated for admixture with oil or water and being used as an ULV concentrate.
Temprid SC	Combination of the fast-action and broad- spectrum control with effective residual from 2 different group of active ingredients. It provides utmost performance and efficacy on pest control.
